THE GAME

You, Ed Lines, the famous reporter have sent the "SUBSUNK" message from the stranded submarine "SEA-LION" only to have it intercepted by enemy agents.

The enemy agents use a mysterious magnetic force to draw the sub into "SEABASE DELTA". You must unravel the secrets held in the base then locate the mini-sub and make good your escape.

LOADING

1. Place the tape in the cassette unit and rewind to the beginning.
2. Hold down CTRL and press the small ENTER key.
3. Press PLAY on the cassette unit.

NOTE: Full loading instructions can be found in your Amstrad Manual.

PLAYING THE GAME

To move around SEABASE DELTA, and perform any actions, you must enter instructions into the computer in the form of Verb/Noun sentences (you will be informed of any consequences of those actions). For example, if you were at a location with an exit to the North, entering GO NORTH (some instructions can be abbreviated to one letter, i.e. N for North) would take you to the new location. During this adventure you will discover various objects which may, or may not, help you.
